

# ITALIAN PRODUCTION, DESIGN & TECHNOLOGY

## OEM/ODM PRODUCTS

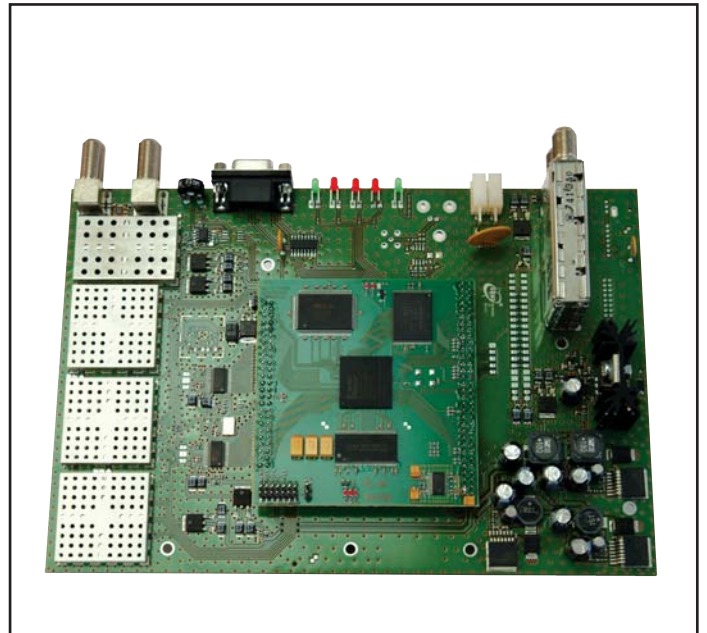

During the years we developed and manufactured many products following the requests of our customers. Thanks to our flexibility we are able to manage OEM and ODM products also for little series. In case of OEM and ODM products, ZEUS give to his customers the opportunity to add in their products its patent "ALS" (Audio Level Stabilizer). This is the case for example in Multi / Mono channel DVBS and DVBT head-end receivers and RealStereo Modulators

The pictures below show some of these developments:  
(please contact us for more details [info@zeusit.com](mailto:info@zeusit.com) )

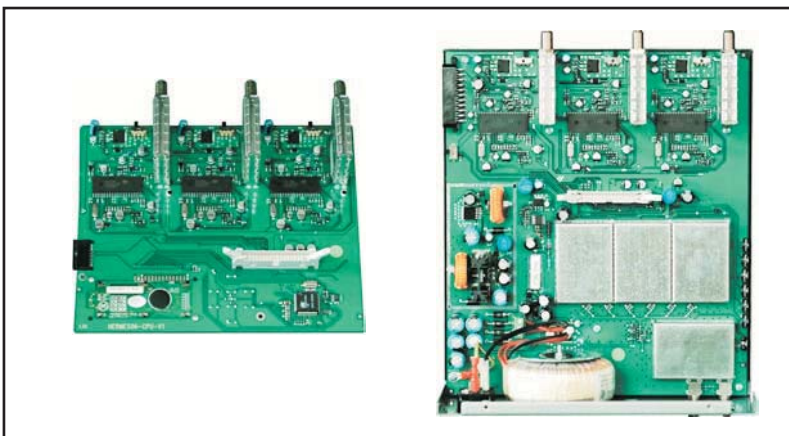

6 channels DVB-S or DVB-T compact head-end

QPSK - COFDM transmodulator

6 channels analog compact head-end

Satellite receiver
